Physical Conservation of the Archive

This workshop, hosted by the Outsiders Within team in partnership with DK Conservators, will:

- introduce the Archive materials (Volumes, photographs, papers, etc.)
- teach trainees about material handling and care of the documents and artefacts at international standard
- Introduce the Acid-free Conservation materials and their construction, and
- Begin the process of Physical conservation of archival Volumes

Dieter Ludemann and Keith Seaford of DK Conservators have extensive experience with paper conservation in a mixed media environment and are willing to share their experience with attendees.

The workshop can accommodate a maximum of twenty participants to ensure safe-keeping of the unique archival materials. Please reserve a place soon if you wish to be included in this group.

Sincerely yours,

Sally Titlestad, Project Manager
